

Product Application

AFA wafer and lug type butterfly valves are special designed for installation between flanges drilled in accordance with the major flange standard ie. DIN, ANSI, JIS & BS. And with the multi operation of hand lever, worm gear, electric actuator and pneumatic actuator.

AFA butterfly valve's liner and disc are replaceable and available in various materials for media compatibles. AFA butterfly valves are widely used in the following industries.

- ~ HVAC
- ~ Petrochemical Processing
- ~ Oil / Gas Process
- ~ Shipbuilding and Offshore
- ~ Water Treatment Building Industrial Utilities
- ~ Power and Utilities
- ~ Fire Fighting and Sanitary System
- ~ Food Industries
- ~ Paper and Mining Industries, etc...
